Where to find private standards?

You will find the private standards in the “Active level registration” module. You need to go to the “Active filter” to find the option “Active classification category”.

Active filter

Active

CAS number

Active classif. category

Active group

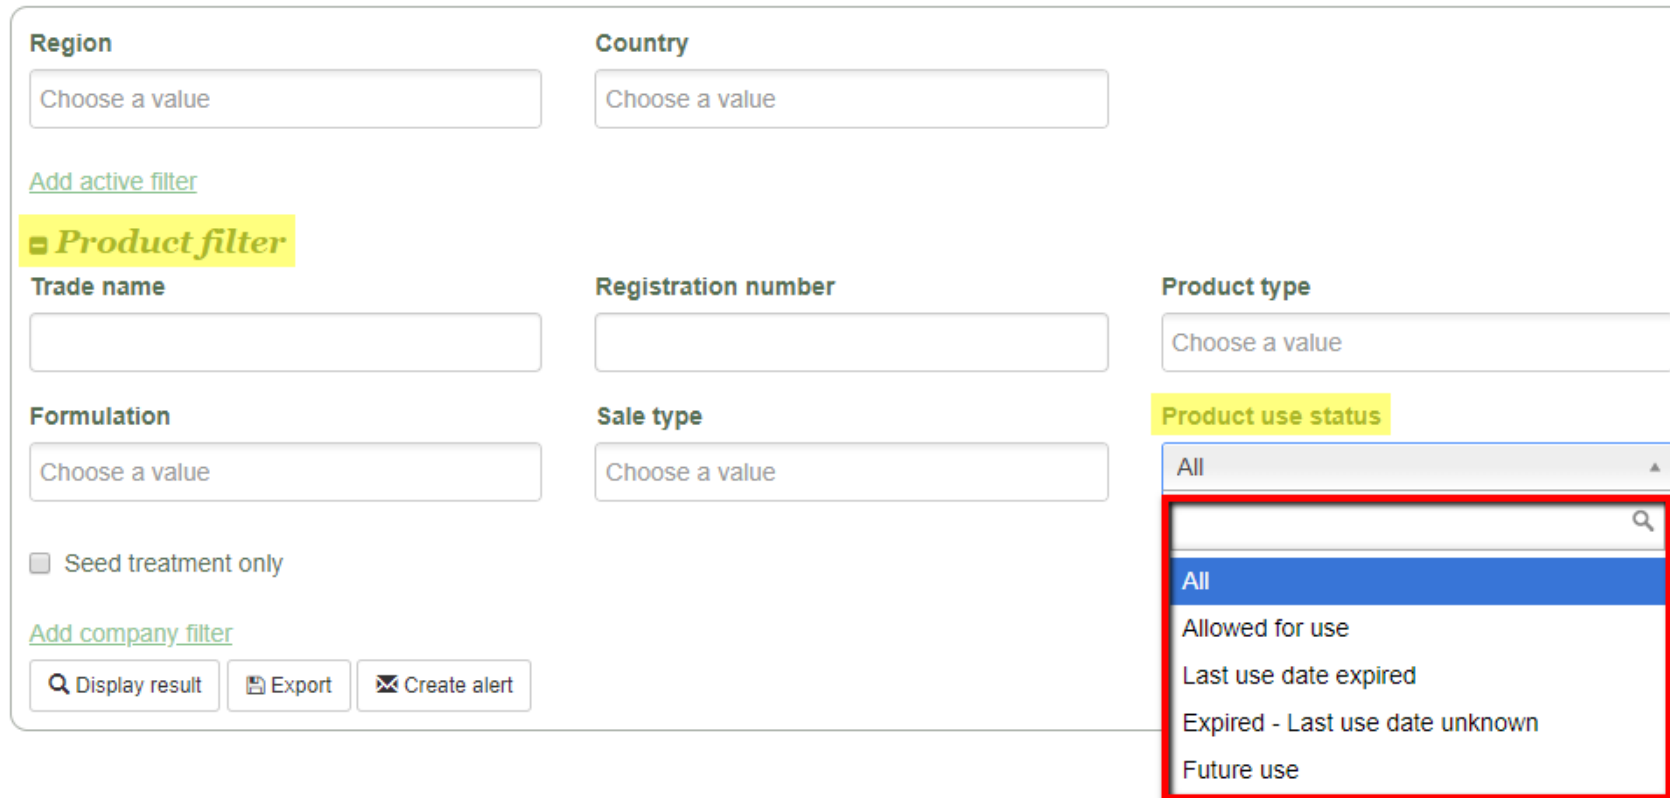

Active type

Active classification

How can I find the 'expired' products?

You will find the "Product use status" inside the "Product" filter. You can select the status in the filter or you can export your report and then filter in Excel.

The screenshot shows a web application filter interface with the following elements:

- Region**:
- Country**:
- [Add active filter](#)
- Product filter** (highlighted in yellow)
- Trade name**:
- Registration number**:
- Product type**:
- Formulation**:
- Sale type**:
- Product use status** (highlighted in yellow) dropdown menu:
 - All
 - All (highlighted in blue)
 - Allowed for use
 - Last use date expired
 - Expired - Last use date unknown
 - Future use
- Seed treatment only
- [Add company filter](#)
-

How to find labels?

You will find the “Links” to labels in all modules with “brands”. The field is called “LINK” and it can be added or removed from you report using the “Display settings” at the bottom of your results.

 Display Settings

CARBOXIN*/THIRAM*	FS	200+200 G/L	Registered	Links	30-APR-2019	30-OCT-2020	SEED-TREATMENT
CLOPYRALID	SL	600 G/L	"	Links	"	"	HERBICIDE
QUIZALOFOP-P-T	EC	40 G/L	"	Links	30-NOV-2019	30-MAY-2021	"

How can I find technical active ingredient registrations?

You can search by formulation:

Product filter

Trade name **Registra**

Formulation **Sale type**

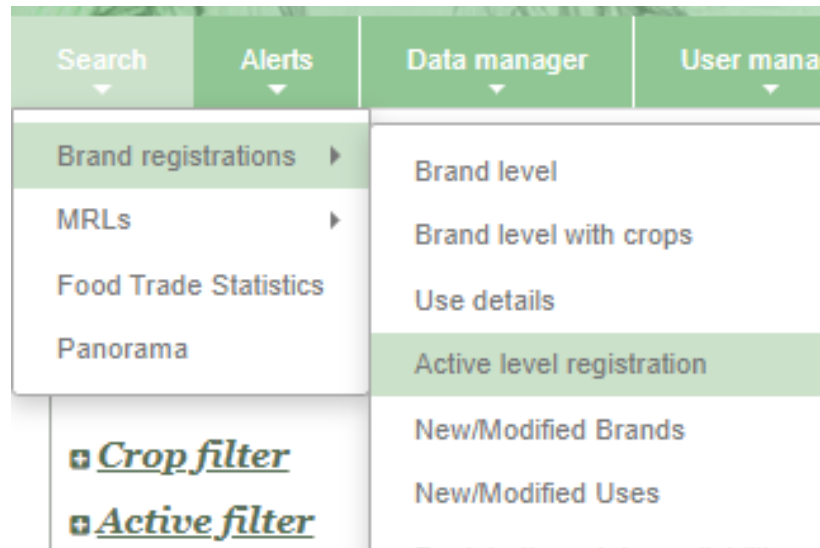

- SP - WATER SOLUBLE POWDER
- SS - SEED ITMT SOL POWDER
- SI - WATER SOLUBLE TABLET
- IB - TABLET
- IC - TECHNICAL MATERIAL**
- IF - LINIMENT
- IK - TECHNICAL CONCENTRATE
- TP - TRACKING POWDER

For the USA and Canada you can search in the field 'Tradename' with the string: MANUFACTURING CONCENTRATE

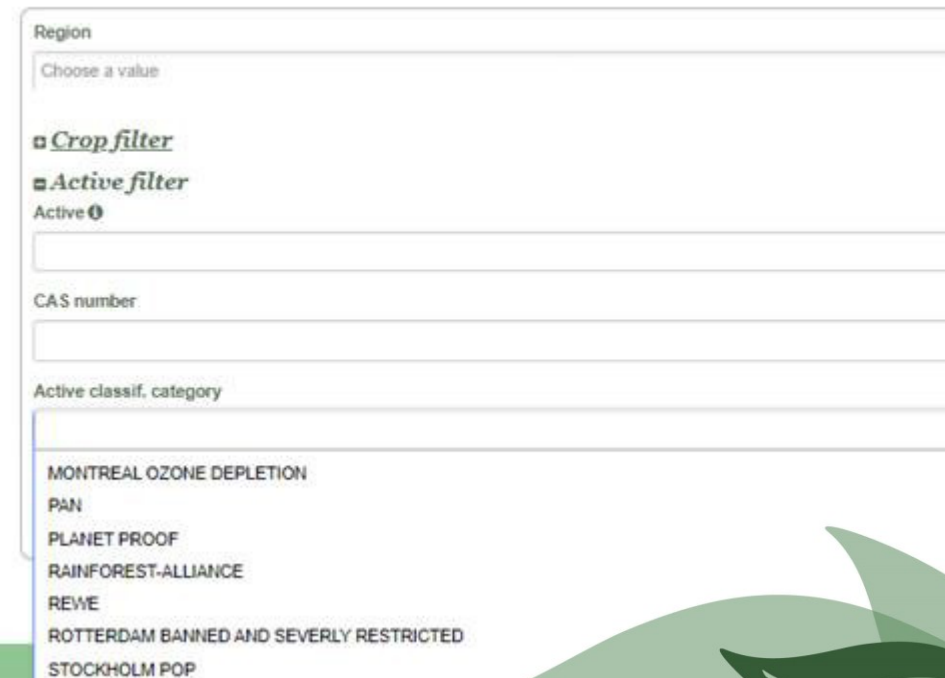

How can I find banned products?

You will find diverse information about banned products in the module “active level registration”:

You can select there different treaties for banned products but also private standards.

Active level registration

The image shows a form titled 'Active level registration' with the following fields and options:

- Region: Choose a value
- Crop filter
- Active filter
- Active: 0
- CAS number:
- Active classif. category:
 - MONTREAL OZONE DEPLETION
 - PAN
 - PLANET PROOF
 - RAINFOREST-ALLIANCE
 - REWE
 - ROTTERDAM BANNED AND SEVERLY RESTRICTED
 - STOCKHOLM POP
